## Battery LXT® 3.0 Ah

Li-ion • 18 V • 3.0 Ah • BL1830B

**BL1830B 3.0Ah Li-ion battery for 18V LXT® tools**

Makita BL1830B 18V LXT Lithium-Ion 3.0Ah battery pack is a powerful and durable battery designed for use with compatible Makita cordless power tools that feature the STAR Protection Computer Controls system

## TECHNICAL

### SPECIFICATIONS

|  |                  |
|--|------------------|
| Nominal Battery Voltage                    | 18 V             |
| Battery Capacity                           | 3,0 Ah           |
| Energy Capacity                            | 54 Wh            |
| Battery Chemistry (Ni-Cd / Ni-MH / Li-ion) | Li-ion           |
| Product Dimensions (L x W x H):            | 113 x 75 x 62 mm |
| Net weight                                 | 0,64 kg          |

### USER BENEFITS

- **Extended Runtime:** The 3.0Ah capacity, combined with efficient lithium-ion technology, provides enough power for extended work sessions, reducing interruptions on the job site.
- **Rapid Charging:** The battery charges to full in approximately 30 minutes with a standard rapid charger, or as fast as 22 minutes with a DC18RC/DC18RA charger, minimizing downtime.
- **Consistent Power:** The battery delivers consistent, fade-free power until it's almost completely discharged, which ensures tools operate at peak performance throughout use.
- **Low Self-Discharge:** It holds its charge for long periods in storage, so tools are ready to use when needed, even after weeks of inactivity.
- **No Memory Effect:** The lithium-ion chemistry eliminates the "memory effect" found in older battery types (like Ni-Cad), allowing users to charge the battery at any time without damaging its overall capacity or lifespan.
